SUMMARY

Computer Science undergraduate at Sunway University focused on software and web development. I build and self-host web projects end to end, from browser interfaces in HTML, CSS, and JavaScript to deployment with Linux, Nginx, Cloudflare Tunnel, and DNS.

SELECTED PROJECTS

emirfaza.com — Personal Portfolio

Jul 2026 – Present

Independent project developed and operated on a home server.

- Built a responsive editorial portfolio in HTML, CSS, and JavaScript, with persistent light and dark themes, film-inspired interface details, and print-specific styling.
- Operate the deployment through Nginx and Cloudflare Tunnel, including custom DNS and security headers.

Analog Film Lab Website — WEB1201

Jul 2026 – Present

Front-end development for a multi-page group coursework project.

- Developed a catalogue with live filtering, search, and sorting, alongside reviews persisted in localStorage.
- Implemented a multi-step registration flow and a shared theme system in plain HTML, CSS, and JavaScript.

Programming Coursework — Sunway University

Feb 2026 – Present

Programming fundamentals and object-oriented programming.

- Completed Python labs and assignments covering control flow, functions, data structures, and problem-solving; earned 45.5/50 in continuous assessment.
- Developing Java programs that apply classes, inheritance, polymorphism, and other object-oriented principles.

EDUCATION

Sunway University

Feb 2026 – 2029

Bachelor of Computer Science (Honours)

Selangor, Malaysia

Current study includes object-oriented programming, web fundamentals, computer organisation, computer mathematics, and artificial intelligence foundations.

SMA Al-Irsyad Satya

2021 – 2024

Mathematics and Natural Sciences

Bandung, Indonesia

Cambridge International school; graduated with an 84.47 transcript average, including 89.26 in Mathematics and 87.00 in Physics.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, C

Web: HTML, CSS, responsive layout, browser storage, accessible and print-aware interfaces

Infrastructure: Linux, Nginx, Cloudflare Tunnel, DNS, self-hosted services

Languages: Indonesian (native); English (IELTS Academic 8.0, CEFR C1)
